

SECOND SEMESTER 2022-2023

Course Handout Part II

Date: 30/12/2024

In addition to part-I (General Handout for all courses appended to the time table) this portion gives further specific details regarding the course.

Course No. : AN F314

Course Title : Introduction to flight Instructor-in-Charge : Dr. Jayaprakash K S

Course description:

This is an introductory course on the essentials of flight covering most of the topics necessary for detailed study if one is interested in future. This course aims at providing an insight into the fundamentals of aerospace engineering at the introductory level, including the key concepts of basic aerodynamics, aircraft performance and testing, flight stability and control, aircraft materials and design consideration, and an initiation to advanced concepts.

Scope and Objective of the Course:

Students taking this course should be able to delve deeper into topics related to aircrafts, aerodynamics, and flight.

- Modelling of the Earth's atmosphere for aircraft design
- The fundamental aerodynamic concepts for flying an aircraft
- Generation of lift by air foils and wings
- Aircraft's optimal climb, cruise and descend rate
- Methods of flight test
- Basic aircraft structural design from the concepts of mechanics of solids

Textbooks:

TB 1: Introduction to Flight, John D. Anderson, 6th Edition, McGraw Hill, (Special Indian edition) 2017

Reference books

- 1. Ojha S.K., Flight Performance of Aircraft, AIAA Education Series, 1995
- 2. McCormick, B.W. Aerodynamics, Aeronautics, and Flight Mechanics. New York: John Wiley and Sons, 1979

Course Plan:

Lecture No.	Learning objectives	Topics to be covered	Chapter in the Text Book
1-4	Fundamentals concepts	Components of an aircraft, Types of aerial vehicles. Properties of atmosphere: ISA, IRA, Pressure altitude, Altimeter; Aircraft speeds	Ch. 1, 2, 3
5-8	Basic Aerodynamics	Fluid dynamic equations & their basis, Ideal fluid, viscous flows, compressibility, wind tunnels	Ch. 4

9-15	Air foils and Wings	Flow past a body, Flow Separation, Generation of Lift, Drag & Moment, Non-dimensional coefficients, Air foils & Wings, Aero foil families, Supersonic flight	Ch. 5
16-25	Airplane Performance	Drag, Thrust and Power Requirements, Rate of Climb, Steady, Level Flight, Gliding Flight, Range and Endurance, Take-off and Landing Performance, Turning Flight and V-n Diagram, UAVs, and MAVs	Ch. 6
26-35	Stability and Control	Moments, Static stability and control, Pitching Moment, Neutral Point, Static Margin, Directional and Lateral Statics, dynamics, and control	Ch. 7
35-38	Structures and Materials	Physics of solid materials, Aircraft Materials, Flight loads, Bending, and Fatigue	Part B (TB 2)

Evaluation Scheme:

Component	Duration	Weightage (%)	Date & Time	Nature of Component
Classroom participation quizzes#	15 min	20%	Evenly spaced throughout the semester	OB*
Mid semester Test	90 min	20%	TBA	СВ
Seminar	40 min	20%	TBA	OB
Comprehensive Exam	180 min	40%	TBA	СВ

[#] Unannounced quizzes will be conducted, and best scores excluding the lowest two will be taken for evaluation

Chamber Consultation Hour: Wednesday 5 pm to 6 pm. Other weekdays with prior appointment.

Notices: All notices concerning this course shall be displayed on the CMS (the Institute's web-based course management system). Students are advised to regularly visit CMS for latest updates.

Make-up Policy: Make ups are not given as a routine. It is solely dependent upon the genuine medical or health circumstances with proper documentary evidence under which a student fails to appear in a scheduled evaluation component. In such circumstances, prior permission should be obtained from the Instructor-in-Charge (I/C). Students with less than 70% of attendance will not be allowed to avail the make-ups. The decision of the I/C in the above matter will be final.

Academic Honesty and Integrity Policy: Academic honesty and integrity are to be maintained by all the students throughout the semester. Any form of academic dishonesty would lead to serious actions.

Dr. Jayaprakash K. S. INSTRUCTOR-IN-CHARGE

^{*} Only prescribed textbook(s) and handwritten notes are permitted
